*FLEX<sup>®</sup> Black*

Take all the benefits of our multitalented FLEX<sup>®</sup> line and add some black magic to it! This is what we did to create FLEX<sup>®</sup> Black. Based on Technora<sup>®</sup> Black

Cross Laminate, this recently developed fabric incorporates Technora<sup>®</sup> Black Yarn in our sophisticated Flex matrix of base 0 – 90° scrim and off angle yarns. All four styles of this innovative FLEX<sup>®</sup> branch offer outstanding fill performance for various crosscut applications. At the same time, they add durability, impact resistance and UV stability on high levels.

FLEX<sup>®</sup> Black is the stuff your dreams are made of when you are looking for an alternative to the FLEX<sup>®</sup> Aramid styles to add the value of increased longevity to your sails. Apart from that they come with a dynamic and modern look.
